Boating

You don't have to bait a hook for big times on the waters. Boating has long been one of the great draws of Lake Barkley. Miles of scenic waters—all navigable year-round via well marked river channels—are ideal for everything from canoes to runabouts to sailboats to luxury yachts. Houseboating, exploring and pontoon boat relaxing in picture-perfect bays, are increasingly popular. Bring your own vessel and launch at one of the many lake access areas, marinas or ramps. You can also supply your own crew and shove off in a rental boat available from one of our marinas.

Connected to Kentucky Lake by a free flowing canal, together they create one of the largest fresh-water man-made lakes in the country. Lake Barkley is part of the intercoastal waterway. This allows boaters to access the Great Lakes and the Gulf of Mexico all by boat. Lake Barkley covers 58,000 acres and provides a variety of outdoor recreational opportunities for millions of visitors each year.

You will find plenty of room for personal watercraft, tubing, water-skiing, or just cruising down the lake. Easy access ramps are spread along the shores. Several boat access ramps offer picnic tables and areas to fish from the shoreline. You'll discover large bay inlets to allow pleasure boaters and fishermen to get away from the main stream water traffic. These bays are as large as some lakes and offer secluded waters to relax and enjoy personal watercraft riding, houseboat anchoring, or hideaway fishing hot spots.

With **58,000 ACRES** of water and **1,000 MILES** of shoreline you should have **plenty** of room!
